**1. Benefits**

Terms “benefit” and “benefits” in the retirement provisions of parties’ divorce settlement agreement was not ambiguous, and, thus, trial court was not warranted in finding there was never any agreement on division of husband’s retirement fund and determining wife’s entitlement to portion of the fund outside contractual provision within the agreement; although word “benefit” was not described within the agreement, statute governing South Dakota Retirement System allowed husband upon retiring from system to claim his retirement “benefits” in the form of a

monthly payment, which he did, and provision in settlement agreement entitled wife to benefits whenever husband should draw on his benefits. SDCL 3-12-47(11), 3-12-112. *Divich v. Divich*, 640 N.W.2d 758, 2002 S.D. 24. Divorce ⇌ 925

### 2. Class B members

Division of criminal investigation agents assigned to the drug unit are class B members, because they are given law enforcement authority. Op.Atty.Gen. Opinion No. 80-28, 1980 WL 119203.

### 3. Compensation

Retirement bonus, either as lump sum or in installments, is not "compensation" as defined in subdivision (20) of this section. Op.Atty.Gen. Opinion No. 78-41 (Sept. 21, 1978), 1978 WL 33910.

### 4. Credited service

Retirement bonus acceptance in installments does not entitle member to additional credited service beyond his retirement date. Op.Atty.Gen. Opinion No. 78-41 (Sept. 21, 1978), 1978 WL 33910.

Where employee received credit under 1967 act for prior service which gave him a vested right in portion of benefits, he was not deprived of the vested right by amendment under which his prior service did qualify for credit. Op.Atty.Gen. Opinion No. 80-39, 1980 WL 119214.

### 5. Disability

State Retirement System Board's decision to deny disability benefits to employee, formerly employed in plumbing and heating maintenance at state college prior to injury to right shoulder, based on employee's ability to perform duties of administering preventative maintenance planning program on campus was both clearly erroneous and arbitrary and capricious, where preventative maintenance position was merely part time and employee received less than one half remuneration he received prior to his injury, so that position was not of comparable level, and where em-

ployee was not qualified by education, training, and experienced to perform necessary duties of preventative maintenance position. SDCL 3-12-46 et seq., 3-12-47(18). *Appeal of Templeton*, 1987, 403 N.W.2d 398. Public Employment ⇌ 389(1); States ⇌ 64.1(3)

Board's finding that 61-year-old school board employee, who had worked as teacher, assistant principal, and principal and who due to absences caused by illness was reassigned as teacher but her contract was not renewed because her excessive absences were disruptive, was not entitled to disability benefits was not sustained by "substantial evidence." SDCL 3-12-46 et seq., 3-12-47(18), 3-12-98. *Gourley v. Board of Trustees of South Dakota Retirement System*, 1980, 289 N.W.2d 251. Education ⇌ 551; Public Employment ⇌ 389(1)

Statute defining disability for purposes of state retirement system should be read to require member seeking disability benefits to first satisfy the test of inability to perform usual duties and then satisfy the test of performance of duties of the position of comparable level. SDCL 3-12-47(18), 3-12-98. *Gourley v. Board of Trustees of South Dakota Retirement System*, 1980, 289 N.W.2d 251. Education ⇌ 544; Public Employment ⇌ 389(1)

Record established that school employee who had served as teacher, assistant principal and principal and who had been transferred to teacher duties because of absenteeism due to illness and whose contract as teacher was not renewed was entitled to disability benefits. ### 6. Fiduciary

As a fiduciary, Board of Trustees of state Retirement System had a duty to act in the highest good faith and to refrain from obtaining any undue advantage over members. SDCL 3-12-47(33). *O'Toole v. Board of Trustees of South Dakota Retirement Sys-*

When a member's request can be decided by the Board of Trustees of state Retirement System in one of several ways, each authorized by statute, the Board's decision must be consistent with its fiduciary duty to that member; if one decision would be consistent with Board's fiduciary duties but a second decision would not be, and Board makes the second decision, it is proper for the circuit court, on appeal, to review the Board's decision in light of the

**Source:** SL 2010, ch 20, § 8; SL 2017, ch 27, § 5.

### 3–12–47.5. Actuarial equivalent defined

For the purposes of this chapter, the term, actuarial equivalent, is a benefit of equal value, computed on the basis of the interest rate, mortality, and baseline COLA assumptions adopted by the board for purposes of the actuarial valuation. If the board adopts a select and ultimate rate of interest, the interest rate is the ultimate rate. Mortality is based on a unisex rate that is fifty percent male and fifty percent female for employees and beneficiaries, based on the mortality rates for retired employees and beneficiaries, including, if the board adopts a generational mortality table, projection of mortality improvement to the year specified by the board based on the member’s and beneficiary’s ages as of the date of the calculation and projected generationally after that year. The system shall make the interest rate, mortality, and baseline COLA assumptions public.

## **§ 3–12–47.7**

## **PUBLIC OFFICERS AND EMPLOYEES**

### **3–12–47.7. Contributing member defined**

For the purposes of this chapter, a contributing member is any member for whom the system receives an employer contribution report that includes the member's employee and employer contributions indicating that the member is an active member. A member's active membership is terminated and the member is no longer a contributing member when the system receives notice of termination from an employer, accompanied by the member's final employee and employer contributions.

**Source:** SL 2016, ch 32, § 53.

### **3–12–47.8. Effective rate of interest defined**

For the purposes of this chapter, the phrase, effective rate of interest, means the interest at an annually compounded rate to be established by the board for each fiscal year. The rate shall be no greater than ninety percent of the average ninety-one day United States treasury bill rate for the immediately preceding calendar year and in no event may the rate be more than the rate established by the board pursuant to § 3–12–121 for investment return for purposes of the actuarial valuation. If a member withdraws contributions pursuant to § 3–12–76, 3–12–76.1, or 3–12–77, or if benefits are payable under § 3–12–110, the interest shall be as annually compounded on the preceding June thirtieth.

**Source:** SL 2016, ch 32, § 54.

### **3–12–47.9. Person's birthday for purposes of eligibility**

For the purposes of determining eligibility for, and the amount of, any benefit payable pursuant to this chapter, the first day of the month in which a person's birthday falls is considered a person's birthday.

**Source:** SL 2016, ch 32, § 55.

### **3–12–47.10. COLA or cost of living adjustment defined**

The term, COLA or cost of living adjustment, means the annual increase in the amount of the benefit provided on July

first, compounded annually. However, no annual increase may be provided unless the member has received benefit payments for at least the consecutive, twelve-month period before July first. The COLA payable is the baseline COLA or the restricted COLA, as applicable. The baseline COLA is equal to the increase in the consumer price index, but no less than one-half percent and no greater than three and one-half percent. The restricted COLA is equal to the increase in the consumer price index, but no less than one-half percent and no greater than the restricted COLA maximum as determined in subdivision (2) of this section. The board shall establish the COLA payable for each fiscal year, based on the fair value funded ratio and actuarially determined contribution rate of the system as of the prior July first and the increase in the consumer price index for the preceding third calendar quarter compared to the consumer price index for the third calendar quarter for the base year (the previous year in which the consumer price index was the highest), by utilizing one of the following subdivisions, as applicable:

- (1) If the system meets the criteria in subdivisions 3-12-122(1) and (2) based on the baseline COLA assumption adopted by the board, the COLA payable is the baseline COLA; or
- (2) If the system does not meet the criteria in subdivisions 3-12-122(1) and (2) based on the baseline COLA assumption adopted by the board, the system shall calculate a restricted COLA maximum in accordance with the board's funding policy that is equal to the actuarially determined annual COLA rate that results in the criteria in subdivisions 3-12-122(1) and (2) being satisfied, if achievable. The COLA payable is the restricted COLA. If the criteria in subdivisions 3-12-122(1) and (2) cannot be satisfied with a COLA equal to or exceeding one-half percent, the COLA payable is one-half percent.

**PUBLIC OFFICERS AND EMPLOYEES**

**3–12–47.11. Excess contributions defined—Payment of excess contributions and credited investment return**

For purposes of this section, the term, excess contributions, means the employer and member contributions on compensation not included in the computation of final average compensation pursuant to §§ 3–12–89.10 and 3–12–502.1.

The excess contributions plus the credited investment return on the excess contributions are payable at the retirement, disability, or death of the member. The credited investment return, which shall be credited annually as of June thirtieth, is the South Dakota Investment Council's reported money-weighted investment return of the system, net of fees, for the completed fiscal year. Any excess contributions made during the fiscal year shall receive one-half year's credited investment return for that year. For any account distributed during the fiscal year, the estimated investment return shall be credited to the end of the month before the date on which the retirement benefit is paid or the disability benefit is paid or death occurred, as applicable.

The excess contributions plus credited investment return are payable to the member when the member commences a retirement benefit or a disability benefit or to the member's eligible child, eligible spouse, or beneficiary upon the death of the member. The amount is not payable to any member who withdraws his or her accumulated contributions from the system. For the purpose of paying a distribution, the amount payable is the total of excess contributions plus credited investment return or the total of excess contributions, whichever is greater. The amount may be paid in a lump sum, rolled over to the South Dakota deferred compensation plan, rolled over to another eligible plan, or used to purchase a supplemental pension benefit. However, the purchase of a supplemental pension benefit is only available upon the member's retirement.

A member who elects to withdraw accumulated contributions as provided in § 3-12-76 or 3-12-76.1, or a member's surviving spouse or nonspouse beneficiary who receives a lump-sum payment pursuant to § 3-12-110, may receive the distribution directly. The board shall promulgate rules pursuant to chapter 1-26 to comply with federal mandates regarding rollover distributions. The system is not required to make an independent determination as to whether the plan identified by a

##### 1. In general

Even assuming Board of Trustees of state Retirement System breached its

fiduciary duty to former members who requested and received a refund of contributions they made to System by failing to disclose to such members that it was considering seeking legislative approval to allow withdrawal of employer contributions as well, Board lacked authority to consider such breach of fiduciary duty as a basis for refunding employer contributions after legislature approved the proposed amendment, where amendment specifically provided that no member or former member who withdrew contributions before its effective date could receive an additional refund. ## 3-12-80. Redeposit of contributions by foundation member returning to service—Time of redeposit

If a person whose accumulated contributions have been refunded since July 1, 1974, reenters the system as a foundation member, the foundation member may elect to redeposit the accumulated contributions, with compound interest at the assumed rate of return between the date of withdrawal and the date of redeposit. The redeposit shall be made within two years after reentry into the system and the credited service forfeited when contributions were refunded shall then be reinstated; any employer contributions forfeited at the time of refund shall be reinstated; and the foundation member, except as provided in § 3-12-131, shall be regarded as having never refunded.

### 3-12-83. Purchase of prior service credit—Calculation of amount due

A current contributing member of the system may receive credited service by election to make, or have made on the member’s behalf, contributions, based on the higher of the member’s current compensation, or the member’s final compensation calculated as if the member retired on the date of election, at an actuarially- determined percentage times the member rate, for each year of service for which the member wishes to receive credit, if:

- (1) The current contributing member of the system could have established credit for any South Dakota public service by making contributions under this chapter or any prior law; or
- (2) The current contributing member was not permitted to establish credit for any South Dakota public service.

The amount of the credited service and the rate of contribution shall be at class A rates unless the service for which credit is sought was rendered as a class B member in which case class B rates shall apply. If a participating unit has failed to pay employer or member contributions to the system on behalf of a member as required under this chapter or under any predecessor system consolidated pursuant to § 3-12-46, the amount due the system shall be calculated in accordance with this section.

The member rate in effect as of July 1, 2001, shall be used in calculation of the purchase cost of any service performed prior to July 1, 2002, if a contract to purchase such service is in place

- (2) Between July 1, 2004, and June 30, 2005, one hundred fifteen percent and one hundred ten percent; and

- (2) Compensation for each subsequent compensation year is limited to one hundred five percent of the highest compensation considered for any prior compensation year, but the amount may not be less than the limit applied in subdivision (1).

Compensation in excess of the limited amount may not be included in the computation of final average compensation but is payable pursuant to § 3-12-47.11.

**3–12–98. Disability benefits eligibility—Applications before July 1, 2015—Required information—Filing deadline**

A contributing member who becomes disabled and who has acquired at least three years of contributory service or noncon-

tributory service since the member’s most recent entry into active status and prior to becoming disabled or was disabled by accidental means while performing usual duties for an employer, is eligible for a disability benefit if the disability is expected to be of long, continued, and indefinite duration of at least one year. In order to be eligible for a disability benefit, a member must be disabled on the date the member’s contributory service ends. Any member who fails to file an application for disability benefits with the executive director within three years after the date the member’s contributory service ends, forfeits all rights to disability benefits. Any information required for a complete application must be received within one year after the application for disability benefits was received. If the required information is not received by the system within one year after the application is received, the member may reapply. For purposes of this section, a transfer within a participating unit, or a change in employment from one participating unit to another participating unit if there is no break in contributory service, does not constitute a new entry into active status. The provisions of this section apply to any member whose application for disability benefits is received by the system before July 1, 2015.

### 3-12-99. Amount of monthly disability benefit—Applications before July 1, 2015

The disability benefit for the first thirty-six months shall be equal to fifty percent of the member's final average compensation immediately preceding the date of disability, increased by ten percent of such compensation for each child to a maximum of four such children.

Starting with the thirty-seventh month, if the member is eligible for and receiving disability benefits from social security, the disability benefit from the system is equal to the greater of the amount paid during the first thirty-six months less the amount of primary social security or the amount of the member's unreduced accrued retirement benefit as of the date of disability. If the member's unreduced accrued retirement benefit is the greater, it is immediately payable by the system notwithstanding any other provisions to the contrary. In no event may the annual amount of a disability benefit be less than twenty percent of the compensation on which the initial disability benefit was based.

Starting with the thirty-seventh month, if the member is not eligible for and receiving disability benefits from social security,

#### **3-12-104. Election of additional survivor protection—Commencement and termination of additional contribution**

Within three hundred sixty-five days of becoming a member, within ninety days of attaining age thirty-five, or within ninety days of the first anniversary of a marriage, a member may elect to provide the member's spouse with additional survivor protection by increasing the member's contribution by an additional one and five-tenths percent of compensation, which additional contribution may not be matched by the member's employer. The additional contribution shall commence with the first payroll period following the date of the election. It shall continue until the earlier of the member's spouse attaining age sixty-five, the death or disability of the member, the death of the spouse, termination of employment or the termination of the marriage as defined in the rules of the board of trustees. The additional contribution may not be treated as a member contribution for purposes of determining the amount of refund of accumulated contributions. However, the contributions paid prior to January 1, 1979, shall be considered part of accumulated contributions for determining the amount of refund if the member terminates employment. Notwithstanding any other provision of this section, a member who is currently contributing to the system may terminate the additional survivor protection under this section, but all funds contributed for the additional survivor protection shall remain with the system and may not be considered as part of the member's accumulated contributions. For the purposes of implementing this section, the one and two-tenths percent contribution for additional survivor protection was applied to all compensation received on or after July 1, 2004, regardless of when that compensation was earned, and the one and five-tenths percent of compensation shall be applied to all compensation received on or after July 1, 2010, regardless of when that compensation was earned.

### 3–12–107. Adjustment of early retirement benefits for foundation members who retire before eligible for social security

Any foundation member who retires before being eligible for social security retirement benefits may elect to receive initial retirement benefit payments from the system in an amount greater than the standard benefit payments computed on the basis of the member's age and earnings at retirement. The greater amount shall be paid until the foundation member reaches the age of sixty-two, at which time the payment from the system shall be the reduced amount so that, as far as possible, the foundation member's combined monthly retirement income from the system and social security shall approximately equal the greater amount paid prior to age sixty-two.

After all benefits currently or potentially payable under any provision of this chapter have terminated, if the aggregate benefits paid to a member and the member's surviving spouse and minor children, including any distribution of the member's variable retirement account, are less than the member's accumulated contributions, the amount by which the accumulated contributions exceed total payments made to date shall be paid in a lump sum as provided in this section.

**3-12-117. Investment of assets by investment council—Pooling of funds—Standards for investment—Compliance with federal divestiture enactments**

The State Investment Council as provided in § 4-5-12 is responsible for the investment of the assets of the system. The Investment Council may pool the several retirement funds for investment purposes and the investment of such funds is not restricted by the provisions of § 4-5-26, but is governed by the provisions of § 4-5-27. However, the assets of the system may not be used as venture capital, nor may the assets of the system be managed in any manner for the purposes of social investment. The State Investment Council shall invest member trust funds in a manner that is solely designed to provide for the exclusive benefit of the members and benefit recipients of the system. However, the foregoing provisions notwithstanding, the State Investment Council shall establish a shareholder activism policy to engage and promote compliance with federal divestiture enactments by the United States Congress and to recognize the risks associated with companies doing business in the countries identified. Once the United States Congress has acted, the State Investment Council may initiate the shareholder activism policy on its own accord, or shall do so at the direction of the Legislature by resolution. The State Investment Council shall report semi-annually and fifteen months after July 1, 2010 on council actions related to the shareholder activism policy. The report shall include an analysis of the success of the policy in accomplishing the goal of promoting compliance with the federal enactments and its impact on all sales of affected companies.

A current contributing Class B member other than a justice, judge, or magistrate judge, may convert credited service as a county sheriff or deputy county sheriff before January 1, 1980, or credited service as a county sheriff or deputy county sheriff while not certified from January 1, 1980, to June 30, 1988, inclusive; credited service as a police officer while not certified from July 1, 1983, to June 30, 1988, inclusive; credited service as a penitentiary correctional staff member before July 1, 1978; credited service as a conservation officer before July 1, 1983; credited service as a parole agent before July 1, 1991; and credited service as an air rescue firefighter before July 1, 1992, from credited service as a Class A member with benefits provided in accordance with § 3-12-91 to credited service as a Class

B member other than a justice, judge, or magistrate judge, with benefits provided in accordance with § 3-12-92, by election to make, or have made on the member's behalf, contributions based on the higher of the member's current compensation, or the member's final average compensation calculated as if the member retired on the date of election, at an actuarially-determined percentage times each year of service for which the member wishes to receive Class B credit. The provisions of this section also apply to a current contributing Class B member, other than a justice, judge, or magistrate judge, who previously has purchased equivalent public service pursuant to the provisions of § 3-12-84.

Payment of a deposit with the system for the conversion of credited service in accordance with this section shall be determined and due at the time the notice of intention to make the payment is received by the system. The amount due may be paid by periodic level installments over a period of up to ten years, the value of which, if discounted for interest at the assumed rate of return, is equal to the amount due at the date of the notice. If a member dies before completion of the installment payments, the surviving spouse may complete the payments due to the system, but unless the payments are being made by a participating unit, the amount shall be paid in full within ninety days of the member's death or retirement. If the periodic payments are not completed or paid when due, the executive director may make a pro rata adjustment to the credited service, benefits payable under this chapter or schedule of payments to allow for the default.

If the credited service of any member or group of members becomes Class B credited service on a prospective basis after June 30, 1993, the prior credited service as a Class A member may be converted to Class B credited service in accordance with this section. If a jailer becomes a Class B member other than a justice, judge, or magistrate judge, the jailer is eligible to convert prior credited service as a jailer under this section.

**Notes of Decisions**

**Stipulation for admission 1**

**1. Stipulation for admission**

ALJ’s failure to consider state retirement system physician evaluation forms which stated that workers’ compensation claimant’s condition was due to injury arising out of employment, despite stipulation to admit the forms as evidence, did not constitute reversible error, as evidence supported ALJ’s determination that workplace injury did not cause claimant’s symptoms; parties did not stipulate that the evidence was to be taken as conclusive, ALJ consid-

ered all the medical records admitted into the record, including physicians’ opinions, personal evaluations and notes, and rejected the opinions as lacking foundation due to their failure to fully review all of claimant’s medical records, forms would not have bolstered the physicians’ credibility or provided more foundation for their opinions, and ALJ simply found another physician’s live testimony to be more credible. *Gerlach v. State*, 747 N.W.2d 662, 2008 S.D. 25. *Workers’ Compensation* ⌘ 1937

ALJ considering state employee’s workers’ compensation claim could not disregard state retirement system physician evaluation forms, as parties had stipulated to the admission of the forms without objection. *Gerlach v. State*, 747 N.W.2d 662, 2008 S.D. 25. *Workers’ Compensation* ⌘ 1172

**3–12–143. Maximum amount of disability benefit—Reporting earned income—Applications before July 1, 2015**

For the first thirty-six months of a disability benefit provided by § 3–12–99, the maximum amount a member may receive in any calendar year from the disability benefit and earned income, as defined in § 32(c)(2) of the Internal Revenue Code, is one hundred percent of the member’s final average compensation. Starting with the thirty-seventh month of the disability benefit, the maximum amount that a member may receive in any calendar year from disability benefits provided by the federal Social Security Act equal to the primary insurance amount, the disability benefit provided by this chapter and earned income, as defined in § 32(c)(2) of the Internal Revenue Code, is one hundred percent of the member’s final average compensation. The maximum amount shall be indexed for each full fiscal year during which the member is eligible for such disability benefit by the COLA. Any amount exceeding this maximum amount shall reduce each monthly disability

benefit payable pursuant to § 3-12-99 in the following fiscal year on a pro rata basis.

Any member eligible to receive a disability benefit shall report to the system in writing any earned income of the member. The report shall be filed with the system before June first following the end of each calendar year in which a disability benefit is paid. A disabled member may file a signed copy of the member's individual income tax return in lieu of the report. No report or return need be filed for the calendar year the member dies or converts to a normal or early retirement benefit under this chapter. The disability benefit of any member failing to file a report or return as required in this section shall be suspended until the report or return is filed. The reduction may occur, however, only if a disability benefit is being paid by the system, but may not reduce the disability benefit below the minimum provided for in § 3-12-99.

This section applies to any member receiving or entitled to receive a disability benefit pursuant to § 3-12-98.

**3-12-190. Interest rate assumption—Suspension of new supplemental pension contracts—No right to particular price**

On an annual basis, at minimum, the board shall establish an interest rate assumption upon which the provisions of subsequent supplemental pension contracts shall be based. The board shall establish the assumption on the basis of the recommendations of the system's actuary and the state investment officer. The interest rate assumption may not be greater than the actuarial assumed rate of return for the fund, nor may the interest rate assumption be less than the effective rate of interest. Any other provision of law notwithstanding, the board may suspend issuance of new supplemental pension contracts at any time. Any suspension of new supplemental pension

contracts shall be prospective in operation and may not affect supplemental pension contracts already in effect.

The administration of the supplemental pension benefit requires that supplemental pension benefit purchase costs vary from one time period to the next. Consequently, participants who accept the option of a supplemental pension benefit have no expectation or fundamental right to any particular supplemental pension benefit purchase price.

A contributing member who becomes disabled and who has acquired at least three years of contributory service or noncontributory service since the member's most recent entry into active status and before becoming disabled, or was disabled by accidental means while performing usual duties for an employer, is eligible for disability benefits if the disability is expected to be of long, continued, and indefinite duration of at least one year and the member is disabled on the date the member's contributory service ends. For purposes of this section, a transfer within a participating unit, or a change in employment from one participating unit to another participating unit if there is no break in contributory service, does not constitute a new entry into active status. The provisions of this section apply to any member whose application for disability benefits is received by the system after June 30, 2015.

If the required information is not received by the system within one year after the application is received, the member may reapply.

The disability advisory committee or the executive director may require a functional capacity assessment of the member to be conducted by a licensed professional qualified to administer such an assessment. The assessment may be used to evaluate the member's qualification for benefits. Refusal to undergo an examination or assessment pursuant to this section is cause for denying the application.

If the executive director determines that the member is not disabled, a notice of the executive director's determination and the reasons for the determination shall be sent by certified mail to the member's last known address.

For any member who has less than twenty but more than four calendar quarters of membership in the system, the member's final average compensation shall be based on the compensation received in all quarters of membership. For any member who has four calendar quarters of membership or less, the member's final average compensation shall be based on the member's annual compensation.

### **3-12-502.1. Limitations on final average compensation for generational members**

For purposes of this section, the term, compensation year, means each separate, mutually exclusive period of four consecutive calendar quarters considered in the computation of final average compensation. The earliest compensation year is the earliest four consecutive calendar quarters considered in the computation of final average compensation and each subsequent compensation year is the subsequent period of four consecutive calendar quarters beginning after the earliest compensation year and continuing with each compensation year thereafter.

For any generational member, compensation is limited as follows:

- (1) Compensation in the earliest compensation year is limited to one hundred five percent of the highest compensation received for any prior four-consecutive-calendar-quarter period during the member's last forty calendar quarters of membership in the system, including time during which the member was not a member but for which the member has received credit under the system;
- (2) Compensation for each subsequent compensation year is limited to one hundred five percent of the highest compensation considered for any prior compensation year, but the amount may not be less than the limit applied in subdivision (1).

Compensation in excess of the limited amount may not be included in the computation of final average compensation but is payable pursuant to section § 3-12-47.11.

If the earliest compensation year includes one or more quarters from the earliest four consecutive calendar quarters in the member's last forty quarters of membership in the system, that compensation year may not be limited.

Compensation in the last calendar quarter considered in the computation of final average compensation is limited to one hundred five percent of the highest compensation considered for any prior calendar quarter during the member's last forty calendar quarters of membership in the system.

#### **3-12-508. Monthly benefit options for generational members**

Any generational member applying for a retirement benefit shall elect one of the following monthly benefit options:

- (1) A single life benefit that provides a monthly benefit to the member for as long as the member lives and ceases upon the death of the member;
- (2) A sixty percent joint and survivor benefit that provides a reduced lifetime monthly benefit to the member, and upon the member's death sixty percent of the reduced benefit continues to the surviving spouse until the death of the surviving spouse; or

- (3) A one hundred percent joint and survivor benefit that provides a reduced lifetime monthly benefit to the member, and upon the member's death one hundred percent of the reduced benefit continues to the surviving spouse until the death of the surviving spouse.

The benefits payable to the member and the surviving spouse pursuant to a joint and survivor benefit are based on the ages of the member and the spouse and are the actuarial equivalent of a single life benefit. The monthly benefit of a member electing the joint and survivor benefit is reduced in order to provide for a continuing benefit for the surviving spouse after the member's death. The last payment of the member's benefit is for the month in which the member's death occurs, and any surviving spouse benefit is effective from the first day of the month following the member's death. The benefits payable pursuant to this section shall be paid in accordance with § 401(a)(9) of the Internal Revenue Code.

### **3-12-509. Irrevocable benefit election by generational members**

If more than one monthly retirement benefit payment has been made to the generational member, the benefit election made by a member is irrevocable and surviving spouse benefits, if elected, may only be paid to the person who is the spouse both at the time of the election and at the time of the member's death and only if the spouse survives the member. The benefit election may not be rescinded in the event of a subsequent divorce or the subsequent death of the spouse.

The application shall be signed by both the generational member and the member's spouse, if applicable, and each signature shall be witnessed by a representative of the system or notarized.

**3-12-511. Effective date of retirement benefit of generational member—Last payment**

- (1) The first day of the month following the date on which the member's contributory service terminated;
- (2) The first day of the month following an intervening complete calendar month after the date on which the member's written application for retirement benefits is received by the system; or
- (3) The first day of the month specified in the member's application for retirement.

**3-12-514. Surviving spouse benefit of retired generational member**

The amount of the surviving spouse benefit is based on the election made upon the retirement of the member and is payable on a monthly basis to the surviving spouse for the life of the spouse.

**Source:** SL 2016, ch 32, § 16.

**3-12-515. Surviving spouse benefit of generational member dying after normal retirement age but before benefit starts**

Upon the death of a generational member who was vested or died while performing usual duties for the employer and who has reached normal retirement age but has not yet begun a retirement benefit, a surviving spouse is eligible to receive a surviving spouse benefit. The surviving spouse benefit is equal to sixty percent of the actuarially reduced amount the member would have received if the member retired on the date of death and elected the sixty percent joint and survivor benefit. - (2) If a family benefit had not been paid, sixty percent of the amount calculated pursuant to subsection (a) or (b), whichever is greater, increased by the COLA from the date of the member's death:
  - (a) Twenty-five percent of the member's final average compensation at the time of the member's death; or
  - (b) The member's unreduced accrued retirement benefit at the time of the member's death.

The surviving spouse benefit shall be paid in monthly installments for the life of the surviving spouse.

**3-12-518. Reentry of employment by retired generational member**

If a retired generational member reenters covered employment at some time after the three consecutive calendar months that start with the member's effective date of retirement, the member's retirement benefits and continued membership shall be administered pursuant to this section.

If the retired member's benefits have not been reduced, the member's monthly retirement benefit shall be reduced by fifteen percent and the annual increase shall be eliminated throughout the period that the member reenters covered employment. The reduction and elimination shall cease if the member again terminates covered employment. However, the reduction and elimination do not apply if the member retired as a Class B member other than a justice, judge, or magistrate judge and subsequently reenters covered employment as a Class A member.

If the retired member's benefits have been reduced, the member's benefits shall be suspended during the period that the member reenters covered employment and the annual increase shall be eliminated during the period that the member reenters covered employment. The suspension and elimination shall cease if the member again terminates covered employment.

Whether the member's retirement benefits are unreduced or reduced, contributions required of the member pursuant to § 3-12-71 shall be deposited by the member's participating unit with the system for the benefit of the member to be transferred to an account within the deferred compensation plan established pursuant to chapter 3-13. The contributions shall be governed by § 457 of the Internal Revenue Code. However, the contributions required of the member's employer unit pursuant to § 3-12-71 shall be deposited into the fund created by this chapter, but with no association or credit to the member. The member may not earn any additional benefits

**3-12-519. Variable retirement accounts of generational members—Contributions and credited investment return**

Each generational member shall have a variable retirement account, which consists of variable retirement contributions and the credited investment return. The investment return shall be credited annually as of June thirtieth for all generational members with a variable retirement account on that date. The credited investment return is the South Dakota Investment Council's reported money-weighted investment return of the system, net of fees, for the completed fiscal year. For any account distributed during the fiscal year, the estimated investment return shall be credited to the end of the month before the date on which the retirement benefit is paid or the disability benefit is paid or the death occurred, as applicable. Any variable retirement contributions made during the fiscal year shall receive one-half year's credited investment return.

**Source:** SL 2016, ch 32, § 21.

**3-12-520. Variable retirement contributions of generational members**

The variable retirement contribution for any year may be adjusted from zero to one and one-half percent of each contributing generational member's compensation and shall be allocated to each generational member's variable retirement account. The variable retirement contribution for the fiscal year beginning July 1, 2017, shall be one and one-half percent of each contributing member's compensation.

**Source:** SL 2016, ch 32, § 22.

**3-12-521. Distributions from generational member's variable retirement account**

The variable retirement account is payable at the retirement, disability, or death of the generational member. The variable retirement account is payable to the generational member when the member commences a retirement benefit or a disability benefit or to the generational member's eligible child, eligible spouse, or beneficiary upon the death of the member. The variable retirement account is not payable to any member who withdraws his or her accumulated contributions from the system. For the purpose of paying a distribution, the variable retirement account is the amount in the member's variable retirement account or the total of the variable retirement contributions made on behalf of the member, whichever is greater.

The variable retirement account may be paid in a lump sum, rolled over to the South Dakota deferred compensation plan, rolled over to another eligible plan, or used to purchase a supplemental pension benefit. However, the purchase of a supplemental pension benefit is only available upon the member's retirement.

Until the option takes effect, the benefit shall be payable in the normal form only, as if the option had not been elected and benefits to be

(2) Revocation may not become effective until 12 months after it has been filed. Until then any benefits payable shall be paid in the amount determined under the joint and survivor option, without retroactive adjustment of such payments once revocation takes effect;

(3) The option shall be automatically revoked if the contingent annuitant dies. If the contingent annuitant is the employee's spouse and the spouse is divorced from the employee before a pension in the optional form has become effective, the employee may continue the option if, within 90 days of such an event, the employee makes a choice of another contingent annuitant and communicates it to the board in writing;

### **20:16:17:22. Joint and survivor benefit**

In lieu of the pension otherwise payable, an employee entitled to a normal or early retirement pension may elect to receive a smaller monthly pension during the employee's lifetime by electing a 50 percent or 100 percent joint and survivor benefit. After the employee's death the percentage of the reduced benefit elected by the employee shall be continued to the employee's beneficiary, called a "contingent annuitant," during the latter's lifetime. If a 50 percent or 100 percent joint and survivor option is not elected, an automatic 50 percent joint and survivor option shall be made unless an employee and spouse specifically choose not to elect either of the joint and survivor options.

### **20:16:17:23. Election of joint and survivor benefit**

If the election is not filed at least 12 months prior to the employee's retirement date, the option may not take effect until after 12 months have elapsed after election, and it shall then be effective for all subsequent months. Any employee reaching retirement before July 1, 1979, shall be granted election options prior to retirement date. Until the option takes effect, the benefit shall be payable in the normal form only, as if the option had not been

Once elected, the joint and survivor option may not be revoked except under the following conditions:

(1) Revocation must be made in writing in a form prescribed by the board and filed with the board before the end of the first calendar month for which a pension benefit has become payable to the pensioner;

(2) Revocation may not become effective until 12 months after it has been filed. Until then any benefits payable shall be paid in the amount determined under the joint and survivor option, without retroactive adjustment of such payments once revocation takes effect;

(3) The option shall be automatically revoked if the contingent annuitant dies. If the contingent annuitant is the employee's spouse and the spouse is divorced from the employee before a pension in the optional form becomes effective, the employee may continue the option if, within 90 days after such an event, the employee chooses another contingent annuitant and communicates it to the board in writing; and

(4) The designation of a contingent annuitant may not be changed after the first pension payment under the option has been made to the pensioner.

**20:16:17:29. Vesting of service credits**

The deferred pension shall start on the normal retirement date, or, at the request of the employee, as early as age 62 in accordance with §§ 20:16:17:08 and 20:16:17:09. If an employee becomes a participant in the retirement plan within the five-year period preceding the employee's 65th birthday, the participant's normal retirement date is the first day of the calendar month coincident with or immediately following the participant's fifth anniversary of the plan participation. If a participant's employment with the commission is terminated at or after attainment of the participant's normal retirement date, the participant is vested in and entitled to receive the participant's accrued benefit.

If an employee with three years of credited service dies after June 30, 1999, but prior to the earlier of either the employee's

normal retirement age or the employee's actual retirement date or if the employee was receiving a disability pension which started after June 30, 1999, a family benefit shall be paid as follows:

(1) A surviving spouse having the care of children shall receive an annual amount, payable in monthly installments, equal to 40 percent of the highest annual earnings earned by the employee during any one of the last three years of credited service;

(2) The custodian or conservator of each child shall receive on behalf of each child, to a maximum of five children, an annual amount, payable in monthly installments, equal to 10 percent of the highest annual earnings earned by the employee during any one of the last three years of service. Payments under this subdivision may not total more than 50 percent of those earnings;

(3) If there are more than five children, the benefits payable to children under subdivision (1) or (2) shall be allocated to all children on a share and share alike basis; or

(4) If there are no benefits being paid to the spouse under subdivision (1), the spouse upon reaching age 65 shall receive a monthly payment based on the pension which would have been payable to the deceased employee at the employee's normal retirement age. The amount of this monthly payment shall be based on the employee's credited and projected service and projected compensation calculated using the credited service the deceased employee would have accrued to aged 65 and earnings projected at two percent per calendar year not compounded. These earnings would be increased each January 1 starting with the first January subsequent to the date of disability. This amount shall be actuarially reduced to reflect a 50 percent joint and survivor option. The benefit payable under this subdivision shall be increased by application of the improvement factor for time which elapses between the date the employee would have reached normal retirement age and the date benefits begin to the spouse.

If continuous employment is interrupted for any cause, except as provided in the plan, any credited service accrued for periods of employment prior to the interruption may not be considered, and the employee shall be treated as a new employee in determining credited service. However, continuous employment is not considered interrupted by leaves of absence from regular employment authorized by the commission for:

The deferred pension amount shall be calculated using the benefit formula in effect at the time of the employee's termination with the commission and the years of continuous employment to the date of termination. If this plan is terminated, the accrued benefits of each participant in the plan immediately become 100 percent vested and nonforfeitable. If an employee becomes a participant in the retirement plan within the three-year period preceding the employee's 65th birthday,

An attempt to encumber a benefit in any way is void. A benefit is not subject in any manner to the debts or liabilities of a person to whom the benefit is payable. Within 90 days after becoming an employee or marrying or attaining age 35 an employee may elect to provide the employee's spouse with additional survivor protection by making an employee contribution of 8/10 of one percent of earnings. This contribution shall start with the first payroll period following the date of the election. It shall continue until the earlier of the employee's retirement, employee's spouse attaining age 65, the death or disability of the employee, the death of the spouse, termination of employment, termination of the marriage, or March 16, 2001. ### **20:16:19:20. Amount of additional survivor protection benefits**

The additional survivor protection payable under § 20:16:19:19 shall, on the death of the employee or expiration of benefits that may have been paid pursuant to § 20:16:19:17 because there is no eligible child, entitle the surviving spouse to an annual amount, payable in monthly installments, equal to 40 percent of the highest annual earnings earned by the employee during any one of the last three years of credited service multiplied by the improvement factor from § 20:16:19:39 commencing on the July first that is at least 12 full calendar months following the date of termination of employment with the commission. The additional survivor protection benefit continues until the spouse dies, becomes eligible for a benefit under § 20:16:19:22, or attains age 65, whichever is earlier. If the spouse is not already eligible for a benefit under § 20:16:19:22,

**20:16:19:20****ADMINISTRATIVE RULES**

the spouse becomes eligible for a benefit as stated in § 20:16:19:22 when the spouse attains the age 65.

Any employee who participated in the § 20:16:19:19 benefit on March 16, 2001, is eligible for the benefits payable under this section. If an employee terminates employment with any successor employer for any reason other than death, the employee is not eligible for a benefit under this section. However, the spouse is eligible for a benefit under § 20:16:19:22 when the spouse reaches age 65 if the employee dies before retirement.

In lieu of the 60 percent pension benefit, an employee or former employee entitled to a normal or early pension benefit may elect to receive a smaller monthly pension during the pensioner's lifetime by electing a 100 percent joint and survivor benefit. After the employee's or former employee's death, the reduced benefit elected by the employee or former employee shall be continued to the employee's or former employee's

To be effective, the 100 percent joint and survivor option election shall be made by written request filed with the board not less than 12 full calendar months prior to the employee’s retirement date. If the election is not filed at least 12 full calendar months prior to the employee’s retirement date, the option may not take effect until after 12 full calendar months have elapsed after election, and it shall then be effective for all subsequent months. Until the option takes effect, the benefit shall be payable in the normal form only, as if the option had not been elected. Benefits to be paid may not be retroactively adjudged when the option is put into effect. If the pensioner should die before the 100 percent joint and survivor option takes effect, the beneficiary shall receive 60 percent of the pensioner’s benefit under § 20:16:19:22.

Once elected, the joint and survivor option may not be revoked except under the following conditions:

(1) Revocation must be made in writing in a form prescribed by the board and filed with the board before the end of the first calendar month for which an optional pension benefit has become payable to the pensioner;

(2) Revocation may not become effective until 12 months after it has been filed. Until then any benefits payable shall be paid in the amount determined under the joint and survivor option, without retroactive adjustment of such payments once revocation takes effect;

(3) The option shall be automatically revoked if the contingent annuitant dies. If the contingent annuitant is the employee's spouse and the spouse is divorced from the employee before a pension in the optional form becomes effective, the employee may continue the option if, within 90 days after such an event, the employee chooses another contingent annuitant and communicates it to the board in writing; and

If continuous employment is interrupted for any cause, except as provided in the plan, any credited service accrued for periods of employment prior to the interruption may not be considered, and the employee shall be treated as a new employee in determining credited service. However, continuous employment is not considered interrupted by leaves of absence from regular employment authorized by the commission for:

The deferred pension shall start on the normal retirement date, or, at the request of the employee, as early as age 55 in accordance with §§ 20:16:19:08 and 20:16:19:09. The deferred pension amount shall be calculated using the benefit formula in effect at the time of the employee's termination with the commission and the years of continuous employment to the date of termination. This benefit shall be increased pursuant to § 20:16:19:39. The accrued benefits of each participant in the plan immediately became 100 percent vested and nonforfeitable on March 16, 2001. If an employee becomes a participant in the retirement plan within the three-year period preceding the employee's 65th birthday, the participant's normal retirement date is the first day of the calendar month coincident with or immediately following the participant's third anniversary of the plan participation. If a participant's employment with the commission is terminated at or after attainment of the participant's normal retirement date, the participant is vested in and entitled to receive the participant's accrued benefit.

**62:01:07:12. Member repayment of overpayments—Options—Interest—Delayed repayment—Failure by member to select an option—System notice and member understanding**

A member required to repay an overpayment of benefits pursuant to SDCL 3-12-114 may choose to make the repay-

ment by an actuarial equivalent reduction in monthly benefits. If the member does not have a spouse, the reduction shall continue for the member's lifetime. If the member has a spouse, the reduction shall reduce both the member's monthly benefits and the surviving spouse's monthly benefits and shall continue for both the member's and the surviving spouse's lifetimes.

In the alternative, a member required to repay an overpayment of benefits pursuant to SDCL 3-12-114 may choose to make immediate repayment in a lump-sum from other funds or may choose to make repayment by monthly benefit reductions over a period not to exceed three years. Repayment shall include interest at the assumed rate of return, unless the overpayment is due to a system error, in which case the executive director may absolve any interest accrual.

If a member's repayment is delayed for more than three months, interest on the overpayment amount shall accrue during the period of delay at the system's assumed rate of return, unless the overpayment is due to a system error, in which case the executive director may absolve any interest accrual.

If a member required to repay an overpayment does not choose a repayment option within two months after being given notice of the overpayment, the member is deemed to have chosen to make repayment by an actuarial equivalent reduction in monthly benefits as outlined in this section. If repayment is pursuant to an actuarial equivalent reduction by either the member's choice or the member's failure to choose a repayment option, system staff shall inform the member that the reduction is unlikely to result in repayment of the exact amount of the overpayment, plus interest if appropriate, and the member is presumed to so understand.

- (2) Required discontinuance pursuant to SDCL 3-12-104;
- (3) Termination of covered employment, even if the member returns to covered employment with the same employer or a different employer;
- (4) Leave of absence, except for military leave of absence; or
- (5) A break in service due to a series of two or more contracts for specified months of service.

A military leave of absence is not a break in contributions or employment. A transfer within an employer unit or from one employer to another without a termination is not a break in contributions or employment.

#### **62:01:08:03. Applicability of limits**

If a member has been credited with less than 10 years of credited service, the maximum annual retirement benefit shall be reduced by multiplying the maximum annual pension by a fraction, the numerator of which is the number of the member's years of credited service and the denominator of which is 10.

The limits in § 62:01:08:01 apply to a straight life annuity with no ancillary benefits and to an annuity that constitutes a qualified joint and survivor annuity, provided payment begins between ages 62 and 65. The limits, however, do not apply to any portion of a benefit resulting from required member contributions made on an after-tax basis. If payment begins before age 62, the limits shall be reduced so that they are actuarially equivalent to such a benefit beginning at age 62. For police or fire fighters who are members of the system, the limit may not be reduced for retirement before age 62, regardless of retirement age, provided that the member has completed at least 15 years of credited service. If payment begins after age 65, the limit is the actuarial equivalent of a \$160,000 annual benefit, as indexed pursuant to § 415(d)(1) of the Internal Revenue Code, commencing at age 65. The interest assumption for purposes of determining actuarial equivalency under this section is the interest rate otherwise used for purposes of computing optional forms of income payable under the system, but the rate may not be less than 5 percent annually if benefits begin before age 62 and may not exceed 5 percent annually if benefits begin after age 65.

**62:03:05:04. Beginning of distribution**

Distribution of deferrals to a participant shall begin no earlier than 30 days following the participant's severance from employment with a participating employer. Any irrevocable election of a benefit commencement date made by a participant or a beneficiary prior to January 1, 2002, and any defaulted

distribution other than a defaulted distribution to an annuity option are revocable as of January 1, 2002. No distribution to an independent contractor of a participating employer may begin until one year after the date on which all contracts with any participating employer have expired. Notwithstanding the foregoing, distributions of deferrals must begin no later than the latter of April 1 of the calendar year following the calendar year in which the participant reaches 70½ years of age or April 1 of the calendar year following the calendar year of retirement.

(2) The beginning date for distributions to spousal beneficiaries must be no later than December 31 of the calendar year immediately following the calendar year in which the participant dies or December 31 of the calendar year in which the participant would have reached age 70½.

- (2) Equal monthly installments over a fixed period; or

**62:03:05:05****ADMINISTRATIVE RULES**

(3) Any other form offered by the third-party administrator.

The election must be made prior to the time any amounts become payable. A participant or a beneficiary who has chosen a payment form other than an annuity shall have the ability to change that payment option, subject to any administrative restrictions and charges established by the board.

If the distribution begins prior to the participant's death, the entire interest shall be distributed over the life expectancy of the participant or the life expectancies of the participant and a designated beneficiary. Any amount not distributed during the participant's life must be distributed after the participant's death at least as rapidly as under the distribution method being used on the date of the participant's death. If the distribution begins after the participant's death, the entire amount payable to the participant must be paid during a period of no more than five years, unless the distribution commences within one year and the participant's spouse is the named beneficiary, then during the life expectancy of the surviving spouse.

**62:03:05:05.01. Distribution directed by participant**

**62:03:05:06. Unforeseeable emergency**

If a participant suffers an unforeseeable emergency, the participant may request an immediate distribution of all or part of

the participant's deferrals. If the executive director approves the request, the distribution shall be made to the extent necessary to satisfy the need, including payment of federal income tax withholding, if necessary. If the executive director denies the request, the participant may appeal the denial pursuant to the appeal procedures outlined in SDCL 3-12-57.1 and in ARSD chapter 62:01:06 by giving notice of intention to appeal within 30 days after the date of the executive director's written notice of denial. The appeal shall be conducted in accordance with SDCL chapter 1-26. No distribution may be made to the extent that the unforeseeable emergency may be relieved through reimbursement or compensation by insurance or otherwise, by liquidation of the participant's assets to the extent that the liquidation does not cause severe financial hardship, or by discontinuation of deferrals under the plan. The need to send a participant's child to college, divorce proceedings, or the desire to purchase a home are not considered unforeseeable emergencies. Any amount that is distributed on account of an unforeseeable emergency is not an eligible rollover distribution and the participant may not elect to have any portion of the distribution paid directly to an eligible retirement plan.

The provisions of this section do not apply if a distribution may be made pursuant to § 62:03:05:07.

**62:03:05:07****ADMINISTRATIVE RULES**

(2) The total distribution—whether elective or involuntary or both—does not exceed \$5,000; and

(3) The participant previously has not received either an elective or an involuntary distribution under the plan.

If implementing subdivision (2) of this section, the value of a participant's nonforfeitable account balance shall be determined without regard to that portion of the account balance attributable to rollover contributions, and earning allocable thereto, within the meaning of §§ 402(c), 403(a)(4), 403(b)(8), 408(d)(3)(A)(ii), and 457(e) of the Internal Revenue Code.

If an involuntary distribution is in excess of \$1,000 and if the participant does not elect to have the distribution transferred to an eligible retirement plan pursuant to § 401(a)(31) of the Internal Revenue Code or does not elect to receive the distribution directly, the distribution shall be transferred to an individual retirement plan of a designated trustee or issuer. The executive director shall notify the participant in writing that the distribution may be transferred to another individual retirement plan.

**62:03:07:01. Automatic enrollment units—Automatic escalation—Decision—Rescission of unit’s status—Automatic enrollee’s status**

Any participating employer may become an automatic enrollment unit. Automatic enrollment includes automatic escalation for any participating employer becoming an automatic enrollment unit after June 30, 2015. The decision to become an automatic enrollment unit shall be made by the elected official, the appointed official, or the governing body in charge of the participating employer. The participating employer shall become an automatic enrollment unit after notice of the decision has been delivered in writing to the system. An automatic enrollment unit may choose to rescind such status at a later date and may do so by delivering written notice of that decision to the system. However, if such a rescission occurs, the status of any automatic enrollee, including any automatic enrollee with automatic escalation, who was enrolled in the plan is not affected.

A participating employer who became an automatic enrollment unit prior to July 1, 2015, may elect to add automatic escalation for its current and future permanent employees. Automatic escalation commences the January or July immediately after the automatic enrollment unit's decision is delivered in writing to the system as long as notice of the decision is received no later than September 15 for a January start or March 15 for a July start. If the notice of the unit's decision is received after those dates, automatic escalation commences the following January or July, as elected by the unit.

**62:03:07:03. Amount of initial deferral—Election to opt out—  
Time limit—Refund—Future participation**

Upon initially becoming an automatic enrollee, twenty-five dollars per month shall be deferred to the plan from the compensation of an automatic enrollee unless the automatic enrollee elects not to participate in the plan within 90 days after his or her first pay date and gives notice of that election to the system, or unless the automatic enrollee elects to defer an increased amount. The deferred compensation and associated gains or losses of an automatic enrollee who elects not to participate shall be refunded to the automatic enrollee within 30 days of receipt of the final contribution by the plan. An automatic enrollee who elects not to participate, however, is not barred from future voluntary participation in the plan.

**62:03:07:03.01. Amount of initial deferral—Election to opt out—

Beginning in 2016 and each year thereafter, automatic escalation for an automatic enrollee means an additional ten dollars per month shall be deferred to the plan from the compensation of an automatic enrollee of an automatic enrollment unit that elected automatic escalation or became an automatic enrollment unit after June 30, 2015. If the enrollee has one or more investment alternatives or a Roth account, or any combination thereof, the additional dollars shall be prorated in the same manner as the enrollee's deferral before the escalation. However, no automatic escalation may occur for an automatic enrollee unless at least one year has passed from the enrollee's hire date on which the enrollee became an automatic enrollee. In addition, no automatic escalation may occur for an automatic enrollee who opts out of automatic escalation or has lowered his or her deferral to zero.

The state investment officer shall select a qualified default investment alternative for deferrals from automatic enrollees during the initial 90-day opt-out period and may select an alternative qualified default investment alternative for accumulated deferrals and subsequent deferrals from automatic enrollees who exceed the 90-day opt-out period but do not select another investment alternative. Neither the state investment officer, the system, the third-party administrator, nor the automatic enrollment unit may be held liable for any loss sustained by an automatic enrollee whose deferrals are either voluntarily or involuntarily invested in either qualified default investment alternative.

Within one year after an automatic enrollee's first compensation deferral and annually thereafter, the system shall provide notice to the automatic enrollee of the enrollee's right to amend his or her deferral amount and the enrollee's right to amend his or her choice of investment alternatives.

The system shall provide no less than 60 days' notice of each annual automatic escalation pursuant to § 62:03:07:03.01. An enrollee may elect not to participate in automatic escalation or may elect to defer an additional amount that is less than or greater than ten dollars. The enrollee shall annually provide notice of any such election no later than December 15 for an enrollee of an automatic enrollment unit that elected a January start or June 15 for an enrollee of an automatic enrollment unit that elected a July start. If the enrollee elects not to participate or to defer a lesser amount after the applicable date provided in this section, the system may not refund the automatic escalation amount to the enrollee.
